

This moment brought to you by
MARINE ATLANTIC

At Marine Atlantic, we need people like you to create moments like this.

Technical Superintendent

At Marine Atlantic, we do so much more than get people from point A to point B. Whether it's reunions, long-awaited trips home, or the start of a new adventure, we bring people together. We couldn't bring people together every day without our own dedicated employees. Our employees embody our core values; they are diverse, safety-oriented team players who exhibit integrity and commitment, and always strive for excellence. Their understanding and commitment to our values make our employees an invaluable part of our organization.

Marine Atlantic is currently looking for a **Technical Superintendent** to work with our Technical Operations Department located in North Sydney, NS.

Reporting to the Director of Technical Services, this role is responsible for Vessel Technical Operations of the Fleet. The Technical Superintendent is accountable for providing technical direction within the organization and for administering maintenance policies and practices as they relate to Company and Vessel Planned Maintenance procedures, insurance, warranty, and annual refits and repairs to all vessels.

The incumbent is often required to work outside normal office hours. Due to the diverse area encompassed by the Service a considerable amount of travel is involved. The Technical Superintendent is required to make attendances to their assigned vessels to carry out Company Inspections and provide direction for financial, operational and Health Safety & Environment protocols. When a vessel is in dry-dock, the incumbent is expected to be in attendance for the entire duration.

Additional Key Areas of Responsibility

- Coordinates the preparation of detailed reports for major repairs or modifications for submissions to the Board of Directors, to enable them to make a decision on submission.
- Ensures that company assets are protected by identifying all warranty items on new vessels and in cases of deficiencies, coordinating the writing of specifications, arranging for contracting, viewing and pricing of all warranty work so charges for repairs or replacements are properly distributed.
- Ensures that essential refit work is included in specification and expenditures remain within budget by providing technical and financial consultation to Marine Engineering Officers and Shipboard Management teams in the development of the annual refit specifications.
- Assists in the accomplishment of company objectives by performing other related duties as required.
