Marine Atlantic is currently looking for **Watchkeeping Engineers** to work onboard our vessels that operate from the ports of Port aux Basques NL and North Sydney NS year-round; and Argentia NL during the summer season. These positions are permanent, spare and relief positions that are scheduled across our fleet and each tour based on operational requirements.

*Marine Atlantic is prepared to offer successful candidates a \$5,000.00 signing incentive in return for one year return of service in the Watchkeeping Engineer position. Candidates who choose to leave the company before the completion of the 1 year of return for service, must reimburse the company the balance of the \$5,000.00 signing incentive on a pro rata basis.

Reporting directly to the Chief Engineer, the Watchkeeping Engineer performs their watchkeeping duties from the Main Control Room.

This position is responsible for the safe operation of all mechanical equipment and systems in the machinery spaces. The Watchkeeping Engineer is responsible for the refueling of the vessel, ensuring all safety procedures are followed.

Under the direction of the Second Engineer, this position is required to perform both preventive maintenance as scheduled by the Maintenance System and also carry out corrective maintenance as required. The Watchkeeping Engineer in charge of the watch must be capable of making quick decisions in critical situations and provide supervision to the engine room staff when performing
