

This moment brought to you by
MARINE ATLANTIC

At Marine Atlantic, we need people like you to create moments like this.

Machinist (Heavy Duty Mechanic)

At Marine Atlantic, we do so much more than get people from point A to point B. Whether it's reunions, long-awaited trips home, or the start of a new adventure, we bring people together. We couldn't bring people together every day without our own dedicated employees. Our employees embody our core values; they are a diverse, safety oriented team-players who exhibit integrity and commitment, and always strive for excellence. Their understanding and commitment to our values make our employees an invaluable part of our organization.

Marine Atlantic is currently accepting applications for a **Machinist (Heavy Duty Mechanic)** to work with our Facilities Management Department in Port aux Basques, NL for a six **(6) month term**.

Marine Atlantic is committed to a diverse, equitable and inclusive workplace. Preference may be given to members of the following under-represented groups: women, Indigenous Peoples, persons with disabilities, visible minorities and 2SLGBTQIA+ community members. If you are a member of one or more of these groups, please state to which group(s) you identify in your application.

Reporting to the Plant Maintenance Supervisor, Machinists will perform tasks to sustain the terminal onshore preventative maintenance program as outlined in the preventative maintenance job plans, ensuring minimum down time with a cost-effective approach to vessel schedules and operational requirements whether planned or unplanned.

Machinists are responsible for maintaining onshore based terminal equipment, including wharf and transfer bridges, facilities, terminal

support vehicles and emergency generators. Machinists also must interpret drawings, equipment service and operation manuals, obtain cost estimates, make sketches, work at heights, order materials, and complete daily time reports. Machinists set up and operate a variety of machine tools to cut or grind metal, plastic, or other materials to make or modify parts or products with precise dimensions, as well as perform welding services when required.

Additional Key Areas of Responsibility

- Work diligently to promote a safe and inclusive working environment.
- Read and interpret engineering drawings, blueprints, charts and tables, or study sample parts to determine machining operation to be performed. Plan best sequence of operations.
- Compute dimensions and tolerances, and measure and lay out work pieces
- Set up, operate and maintain a variety of machine tools.
- Non-repetitive machining operations such as sawing, turning, milling, boring, planning, drilling, precision grinding, and other operations.
- Fit and assemble machined metal parts and subassemblies using hand and power tools.
- Verify dimensions of products for accuracy and conformance to specifications using precision measuring instruments.
- Set up and program machining tools.
- Participate in lubrication and welding duties.
- Execute tasks as outlined in preventive maintenance job plans.
- Fuel vessels and offloading fuel from bulk carriers/tankers.
- Maintain terminal support vehicles.
- Operate the Loading Ramps as required.
