

## **Improving For You**

### **Upgrades ongoing at the North Sydney and Port aux Basques Terminals**

We are committed to inform you of the many activities related to our shore-based renewal program at our terminal properties this fall and winter through regular updates during the construction phase. Our project plan has been designed to have as little impact as possible on our customers and operations during this period.

This week, preparation work will begin for paving activities at the site of the former administration building in North Sydney. This area will be transformed into additional marshalling space for drop trailer traffic.

Please note that certain construction crews will begin to wind down activities this weekend for Christmas. Construction work on all projects will ramp up again following the holiday season.

#### **Your safety is important to us.**

During the construction phase, contractors will be working at various locations throughout our terminal properties. While the project plan has been designed to minimize the impact on our customers, we ask for your assistance during this period of increased activity. Please familiarize yourself with posted signage and avoid construction areas.

If you have any questions regarding our renewal process, please feel free to speak to a member of our team. Thank you for choosing Marine Atlantic.

Andrew Tobin  
Manager of Customer Relationships

#### **Activity during Week of December 17th**

<b>North Sydney</b>	<b>Gulfspan Dock upgrade project underway (dock out of service)</b> <b>Ongoing trenching for electrical system upgrade (impact to onsite parking)</b> <b>New lighting installation at southern marshalling yard expansion</b> <b>Preparation work for paving – site of former administration building</b>
