

Improving For You

Upgrades ongoing at the North Sydney and Port aux Basques Terminals

We are committed to inform you of the many activities related to our shore-based renewal program at our terminal properties this winter through regular updates during the construction phase. Our project plan has been designed to have as little impact as possible on our customers and operations during this period.

Your safety is important to us.

During the construction phase, contractors will be working at various locations throughout our terminal properties. While the project plan has been designed to minimize the impact on our customers, we ask for your assistance during this period of increased activity. Please familiarize yourself with posted signage and avoid construction areas.

If you have any questions regarding our renewal process, please feel free to speak to a member of our team. Thank you for choosing Marine Atlantic.

Andrew Tobin
Manager of Customer Relationships

Activity during Week of March 4th

North Sydney **Gulfspan Dock upgrade project underway (dock out of service)**
Installation of new electrical system ongoing

Port aux Basques **Ongoing upgrades to interior of Terminal Building (showers out of service)**
Ongoing Gulfspan Dock Renovation Project (dock out of service)

Note: As part of the ongoing terminal upgrades in Port aux Basques, there will be a power interruption on Sunday, March 10th that will last between six and ten hours, anticipated to begin at 23:00. During this time, the terminal building will be operating on emergency power only. This will not impact vessel sailings or operations, however, some amenities within the terminal building may be temporarily unavailable.
