Senior Engineers

As part of the Marine Atlantic team, you will participate in a variety of ongoing training programs and development opportunities to navigate your career and chart your course for success. We provide a positive and inclusive work culture that is dedicated to creating an environment which promotes employee growth, career development, and job satisfaction. Some benefits of working with Marine Atlantic include competitive salaries, defined benefit pension plan, comprehensive health benefit packages, and professional development opportunities. Come experience the pride of working with an organization with newly constructed and revitalized infrastructure that has positioned itself for the future.

Marine Atlantic is currently looking for **Senior Engineers** to work onboard our vessels that operate from the ports of Port aux Basques NL and North Sydney NS year-round; and Argentia NL during the summer season. These positions are permanent full-time spare and relief positions that are scheduled across our fleet and each tour based on operational requirements.

Reporting directly to the Chief Engineer, the Senior Engineer performs their watchkeeping duties from the Main Control Room.

This position is responsible for the safe operation of all mechanical equipment and systems in the machinery spaces. The Watchkeeping Engineer is responsible for the refueling of the vessel, ensuring all safety procedures are followed.

Under the direction of the Second Engineer, this position is required to perform both preventive maintenance as scheduled by the Maintenance System and also carry out corrective maintenance as required. The Senior Engineer in Charge of the Watch must be capable of making quick decisions in critical situations and provide supervision to the engine room staff when performing their engine room activities. Good communication skills are required when dealing with other departments to ensure a safe and efficient operation.
